

PLANETARY HIGHLIGHTS OF 2015-2018

This list picks out themes which are active over the period 2015-2018. They are all connected, in that Saturn is involved with three other planets. Together, they make a 'T-square', a precise geometric formation of considerable intensity which is strongly active in the 2016, until late November.

If significant events happen for you, check to see if the date is near one of those listed below. Then look to see if the pattern recurs. If it does, a further unfolding of the situation may happen at that time, and knowing the timing can help you 'stay tuned'.

Also, all the dates below are useful 'markers' indicating auspicious times for meditation. In general, the energies feel more intense in the 'lead up' to the dates mentioned.

What does this pattern mean?

A good place to start is with Saturn, travelling through Sagittarius (until 20.12.2017). This challenges us to consider and re-consider our beliefs and attitudes as we seek for wisdom. The power of the mind to shape our experience is revealed. In 'the world', we see religion, philosophy, dogma and belief in the 'viewfinder', as sometimes the horrifying consequences of greed are revealed. Let us not be distracted, however, by this 'hall of mirrors'. The inner work of finding the hard-liner, the fundamentalist, the atheist, the spiritually deluded, the doubter, the prejudiced ... but also The Wise One ... *inside ourselves* will contribute to our clarity and openness of heart and help us find our way. The process of self-inquiry required for this will engage our capacity to work skilfully with dilemma, paradox and conflict.

Until 9.9.2016, Jupiter is in Virgo, opposite Nessus, Neptune and Chiron. The Nodal Axis increases the intensity of emphasis on this sign, adding to the intensity of the polarity of 'Mystic' and the 'Pragmatist', the way of feeling and compassion in complement to the way of manifest service. So time out for meditation and contemplation leads to an increased ability to do what we called to, visibly or invisibly. The alchemical slogan "Solve et Coagula" reminds us that it is all 'part of the process'!

By late 2016, Jupiter in Libra will make a T-square with Uranus and Pluto, whose squares were exact from 2012-2015, and who go by the astrological nick-name of 'The Revolution'! Jupiter in Libra mediates their energy anew, assisting us to establish a new balance and to reflect upon our recent 'revolutions', inner and/or outer.

Saturn and Jupiter
